JoAnn Kelly: Garden club makes valley more beautiful

—

To the editor:
I would like to express my huge appreciation to the Mountain Garden Club for their great efforts in making this valley an even more beautiful place to live in! I must say that the flowers on the islands in front of the Conway Library are especially beautiful and varied this year. I'm sure this summer with all the sunshine and little rain made for some interesting challenges but you would never have known it. Even on those days when the temperatures got close to 100 degrees, those flowers seemed well watered! So, thank you ALL. Your work is well appreciated.
JoAnn Kelly
