"New Ideas for Autumnal Floral Arrangements"

Mary Huntoon- NGC Accredited Flower Show Judge, Accredited Flower Show Instructor in Design for NGC.

Floral arrangements can be enjoyed any time of the year, but in the fall, arrangements begin to reflect the change of the seasons and the spirit of autumn. We can appreciate the last warm sunny, but crisp days, before winter sets in. These designs connect you back to nature and the bounty it has provided us to choose from, such as a warm color palette of reds, yellows, gold, brown and orange. The textures and shapes of fruits, pods, branches and berries also add to the interest of these designs.

We will begin by moving into the holiday season with the spirit, warmth and richness of these materials. This presentation will introduce some new ideas that will help you to welcome and begin this transformation. Enjoy!

ADVANCE RESERVATIONS REQUIRED ~ must receive reservation & payment by October 5, 2019
